MUSKETAQUID

All my hurts
My garden spade can heal.
A woodland walk
A quest of river-grapes, a
mocking thrush,
A wild rose or rock-loving
columbine,
Salve my worst wounds.

Yes, Sister, I buy only of Park; his seeds
always grow and yield the finest flowers.

THIS IS WHAT WE CALL "A FAIR DEAL"

We want you to be completely satisfied—Pleased with every packet of seeds, every bulb, every plant you order from us. Please tell us if an error is made (This does sometimes happen, for "To err is human") or if for any reason you are not pleased with the seeds or bulbs or plants we send you. We are never satisfied until you are and shall be glad to remedy whatever may not be entirely as it should be.

WE GUARANTEE the safe delivery of all seeds, bulbs, and plants.

WE GUARANTEE our seeds, bulbs and plants, to the full extent of the purchase price, to be true to name and sure to grow under favorable conditions. We will always do more than fair dealing demands to give you satisfaction. Because weather conditions and other things over which we have no control sometimes cause crop failure, we can not be responsible in any way for the crop, and in no case for more than the purchase price.

FREE DELIVERY: We pay all transportation charges on all seeds and bulbs. Accessory items are postpaid except those described as not prepaid.

PLANT ORDERS (Exclusive of other merchandise ordered) for \$2.50 or more are postpaid. Add 25c handling charge on smaller Plant orders.

GROWING FLOWERS IS A FRIENDLY OCCUPATION—Share your catalog with your friends.

IF YOU ARE IN A HURRY

We normally mail seeds the day your order arrives, however, parcel post has not been quite as rapid as usual during the past few years, so if you wish your seeds in a hurry and include a few extra pennies for postage, we'll rush them back to you by First Class or Air Mail.

FIRST CLASS: Add 6c for each \$1.00 worth of Flower Seeds.

AIR MAIL: Add 12c for each \$1.00 worth of Flower Seeds. If postage cost is less than amount you send, we'll enclose the extra postage with your seed **THIS OFFER APPLIES TO FLOWER SEEDS ONLY.**

GOD'S LOVE, AND BEAUTY

"My Father in Heaven, help me never to forget Thy Love to me. It comes with the light of the morning, and it remains with the light of the stars of the night. It looks up to me in the beauty of the flower. It shines upon me in the smile of a friend. All beautiful things are the gifts of Thy love. Help me to be thankful, and to link every beautiful thing with Thee.—Amen."

Flower Book

DEAR PATRON FRIENDS

Mr. R. L. Alexander, a good friend of ours, has written a poem especially for this page in our Flower Book. It so adequately expresses what we would have liked to say here, that it is printed below in its entirety. Here is the road to peace.

YOU CAN FIND HIM IN THE GARDEN

When the road is long and you grow weary,
When the climb is steep and the out-look dreary;
When the night is black and you need light,
When hope is gone and you cannot fight.
When your courage is torn, your dreams shattered.
When your faith is weak, your resolves tattered.
When you are too tired to live, too weary to care,
When your heart is heavy, and you are filled with fear.
Go out into your garden, let Him walk at your side.
Let Him give you the victory and be your guide.
You can find Him in your garden in the face of every flower
For there He shines transfigured, A God of love and power.
When, in the beginning, He made man in the days of long ago,
He placed him in a garden with flowers to bloom and grow;
And there in the morning, in the cool of the day,
It was God and man and flowers with God having His way.

"The Peace of the Garden" expresses itself in terms of friendship too, and these repeated greetings, and the many pleasant letters that come to us every day have brought us into the happy relationship of friends. In behalf of all of us at The Geo. W. Park Seed Co. I wish to thank each of you for your kind expressions as well as your continued patronage.

During the course of the past 84 years, this business, founded in 1868 by Geo. W. Park, has served members of many families during each of three generations. The Geo. W. Park Seed Company has grown along with our great United States, so that now with 84 years of experience to draw on, and an organization built up over a long period of time, we are prepared to offer you the finest seeds and bulbs grown in the world today, and the best of service.

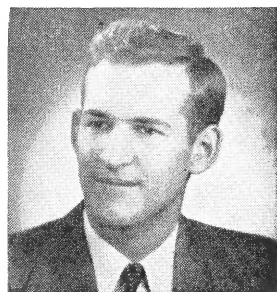

It is a special pleasure, this year, to hand you our Flower Book, revised and improved in various ways to make it more attractive and useful to you in the selection of your seeds and the care of your plants.

I wish you all success and pleasure in your gardening.

Floricordially yours,

GEO. B. PARK, President

COMFORTING

Canoe, Ala., Mar. 11, 1951
Dear Sirs: I felt like I had met old friends, when I got your catalogue. I used to get Park's flower catalogues and magazine before I was grown and I will soon be 60. I lost my husband last May, and find my flowers the most comfort and consolation of anything, as I have always found them in times of trouble. Wishing you lots of success. Yours truly, Mrs. M.E.M.

WM. J. PARK, V. Pres.
Grows the plants for you.

TO INSURE YOUR SUCCESS

1—The Seeds We Sell Are All of the New Crop.

Grown by specialists in many parts of the world, **TESTED FOR GERMINATION AND PURITY.** Sure to grow and give you the finest results.

It takes no more time and effort to grow seeds from the best strains, so start with the best and save disappointment at flowering time by ordering direct from Park.

2—To Prevent Disease and "Damping Off".

Nearly all soils contain harmful fungi, which if not controlled, attack the seed and cause what is known as "Damping Off" (This usually happens just before or just after the baby plants emerge from the ground). Also there are present on the surface of most seeds certain pathogenic fungi which, if not destroyed, cause the seed to decay. (This is especially true in cold damp weather.) These often account for poor, uneven stands and weak, non-vigorous young plants. Fortunately, in recent years agricultural scientists have shown that certain chemicals will destroy the disease organisms and protect the seed from attack by organisms present in the soil.

AS A REGULAR PARK SERVICE

WE TREAT ALL VARIETIES OF 82 Species of FLOWER SEEDS (This includes the greater part of those we offer) and **ALL VARIETIES OF VEGETABLE SEEDS** with the most efficient Seed Treatments as recommended by Experiment Stations. Better germination, stronger plants, higher yields will thus be yours with Park's Treated Seeds.

New Flowers and Specialties

FROM ALL
OVER
THE WORLD

We invite your special attention to the fine new flowers listed on pages 2, 3, and 4. You will find almost every variety offered by any seedman listed in the body of the book, but these three pages we have reserved for those which we consider of special merit. The All America winners and a majority of the flowers listed on pages 2, 3 and 4 are offered for the first time this year. There are also a number of flowers listed throughout the catalog for which we did not have room on these pages which are entirely new. You will like them all.

1603A—Petunia Ballerina. Pkt. 25c. A.A. 1952.

GEORGE W. PARK SEED COMPANY, Greenwood, South Carolina.

1495A—ROGGLI'S GENUINE ORIGINAL SWISS GIANT PANSIES MIXED.

Do not confuse this with the Swiss strain offered below which is several generations removed from the original. Seeds we offer here are direct from Mr. Roggli, the Swiss Originator of this world renowned strain. Since it was originally offered it has become the standard others attempt to attain, but the Roggli's have continued to improve it and it is still the finest to be had in the world today. Huge flowers are produced on long erect stems. The color range is superb. There is a tendency toward the handsome deeper tones of red and blue, but it is well balanced with lighter yellows, whites, light blues. 60 seeds 25c; 300 seeds \$1.00; 1/32 oz. (about 800 seeds) \$2.00; 1/16 oz. \$3.75; 1/8 oz. \$6.75; 1/4 oz. \$12.00.

Blooms at top and left are from Genuine Original Swiss Giants

GIANT PANSIES A PARK SPECIALTY

Pansies are well and favorably known, so that a description of their exquisite beauty, and usefulness in the garden is unnecessary. They are simply indispensable, and if we were to name a half dozen of our best seedling flowers, the Pansy would be one of them. There is, however, much difference in the strains, some being greatly superior in vigor and free-blooming quality to other plants as well as the great size, form, variety, and richness of colors and variations. We are pleased to say that the seeds we offer are from Pansy specialists, all of the new crop, and cannot be surpassed in quality, regardless of claim or prize.

Bloom at right is from Engelman's Giants

We offer ORIGINATOR'S Seeds of the FOUR FINEST PANSY STRAINS in the World.

1495—PARK'S SUPER SWISS GIANT PANSIES

Here's our finest, most complete Swiss blend. Enormous flowers of Swiss type, rounded and marked to perfection with heavy (Weather-proof) texture. Best of all is the remarkable color range which contains many new Pansy colors. Blended by formula from the very finest strain produced by each of 3 Pansy specialists, with some Roggli's Original added. 50 seeds 10c; 200 seeds 25c; 1/32 oz. 75c; 1/16 oz. \$1.35; 1/8 oz. \$2.00; 1/4 oz. \$3.50; 1/2 oz. \$6.00; 1 oz. \$11.00.

SWISS GIANTS IMPROVED SWISS GIANTS.

Most popular of the Giant Pansies, this group is enthusiastically admired for its exquisite colors and huge size. Color tendency is toward the handsome deeper tones, well balanced by yellows, whites and light blues. 1473—Superb Mixture. Pkt. 10c; Giant Pkt. 25c; 1/32 oz. 50c; 1/16 oz. 95c; 1/4 oz. \$3.00.

SWISS GIANT COLORS Pkt. 10c; Giant Pkt. 25c.

- 1465—Alpenglow. Cardinal shades.
- 1466—Berna. Dark Violet Blue.
- 1466A—Black King.
- 1478—Claret. Wine red.
- 1467—Coronation Gold. Canary yellow, lower petals flushed golden orange, slightly ruffled.
- 1468—Fire Beacon. Brick red.
- 1469—Lake of Thun. Thuner Sea blue.
- 1471—White. Pure white.
- 1472—Yellow Master. Pure yellow.

1496—Swiss Giant Orange. Color is vivid orange, the upper petals with a halo of golden yellow, the lower petal is deep orange. Flowers are perfectly round with overlapping petals of good substance. Introduced and grown for us by Vis Bros. in Holland. Pkt. 25c; 3 pkts. 65c.

1497—Giant Raspberry Rose. An entirely new color in the Swiss Giant Strain. A lovely tint of pink, best described as Raspberry Rose. It has a suggestion of a lighter tone on the edges and a velvety blotch in a deeper tone. Outstanding, new. Pkt. 25c; 3 pkts. 65c.

The Largest and Finest of All Pansies

- Roggli's Swiss Giants for color and size
- Engelman's Giants for heat resistance
- Ellis' Oregon Giants finest ruffled flowers
- Steele's Jumbo Mixed early bloom
- 1479—A Blended Mixture of 4 strains above. Pkt. 25c; 400 seeds \$1.00.

1482—Engelman's Giants.

Seeds we offer are direct from Mr. Engelman. This strain is particularly noted for its heavy texture and very strong stems which enable it to hold up better during hot weather than any other strain. Flowers are of giant proportions and the color range is complete tending toward the brighter colors, many being penciled or veined giving a striking and different effect. 30 seeds 10c; 100 seeds 25c; 1/32 oz. \$1.00; 1/16 oz. \$1.75.

1484—Steele's Jumbo Mixed.

Field plants producing flowers up to 5 inches in diameter. Many new and unique colors—pastel pinks, apricots, yellows, blues, brass tones, copper bronze, purple, red in various combinations and self colors. Fully two weeks earlier than other strains. Pkt. 10c; Gt. Pkt. 25c; 1/64 oz. 75c.

RUFFLED OR FRILLED

1487—The Oregon Giants.

Originated and grown for us by Mrs. Merton G. Ellis in Oregon, this is by far the finest American strain of Giant Ruffled Pansies. The color range is superb, well balanced and complete. The flowers are very heavy textured 3 1/2-4 1/2 in. in diam. and heavily ruffled. We highly recommend this as the best ruffled Pansy in existence. 100 seeds 25c; 500 seeds \$1.00; 1/16 oz. \$1.75.

1489—MASTERPIECE, MIXED.

Crinkled and ruffled blooms of such great substance as to appear double. Colors mostly in richer deeper tones. Pkt. 10c; Giant Pkt. 25c.

1488—Park's Pedigreed Exhibition Giant Art Shades

Developed for all the best qualities of early, huge, long stemmed splendid textured flowers with particular selection of art and pastel shades, these plants produce a unique and strikingly beautiful effect. Pkt. 10c; Giant Pkt. 25c; 1/32 oz. 75c.

SWEET SCENTED PANSIES

1499—READ'S NEW CENTURY SCENTED. Introducing an entirely new strain from England, in which has been developed an exquisite scent and color range which baffles description. Includes many new colors. Blooms 4 1/2 in. in diam. have been recorded, while 3 1/2 in. is average. Petals are stiff and fleshy enabling the flowers to keep well even when buffeted by wind and rain. Originator's seeds. Pkt. 15 seeds 25c; 40 seeds 50c; 100 seeds \$1.00.

1498—Butterfly Hybrids.

Something really different in Pansies. A strain mainly of pastel character in shades of pink, rose, apricot, buff, orchid, pale gold, coral and flesh. The form is unbelievably ruffled, fluted and marked with sun rays and blotches of butterfly sheen metallic jewel tones. 40 seeds 25c; 200 seeds \$1.00; 1/32 oz. \$2.95.

1493A—Park's Swiss Select.

Characterized by a strict uniformity and compactness of habit. Flowers are huge, of exceptional substance, and evenly blotched. Complete color range with plenty of reds and deep velvets. None finer today. Supply very limited. 60 seeds 25c; 300 seeds \$1.00.

1490—CURLED DOUBLE FRINGED MIXED. Pkt. 25c.

1492A—"FELIX" - "The Cat's Whiskers." Well ruffled flowers of good size. Colors are rich and unusual—including purple, apricot and wine shades together with pastel bronzes and smoky tones difficult to describe. Each flower is marked with dark "whiskers" which characterize this strain, and over-all effect is indeed striking. Pkt. 40 seeds 25c; 200 seeds \$1.00.

1486—LARGEST PANSIES GROWN. Maple Leaf Giants. Maple-like leaves. Pkt. 25c.

GIANT FLOWERED—SPECIAL COLORS

- 1475—Azure Giants. Deep dazzling blue
- 1477A—Moon Moth. Immense pure white. 25c.
- 1474—Red Giants. All cardinal colors.
- 1474A—Jumbo Fay Dirt. Largest golden yellow ever produced. Resists summer heat. Pkt. 25c.

GIANT WINTER BLOOMING PANSIES

These are unusually hardy and bloom very early in spring; indeed where winters are mild they bloom thruout the cold months, with a little protection, they bloom during the northern winters. 1483—Ice Pansy. (Hyemalis). Winter Flowering Early Giant. A complete mixture of colors. 1481—DON'S WINTER FLOWERING. Pkt. 25c. 1481A—CLIMBING PANSY. Often several ft. in height. Extra long cutting stems. Wide color range. Pkt. 25c. Limited supply.

You'll adore a bed of Colorful Giant Pansies grown from Park's Seeds.

AQUILEGIA

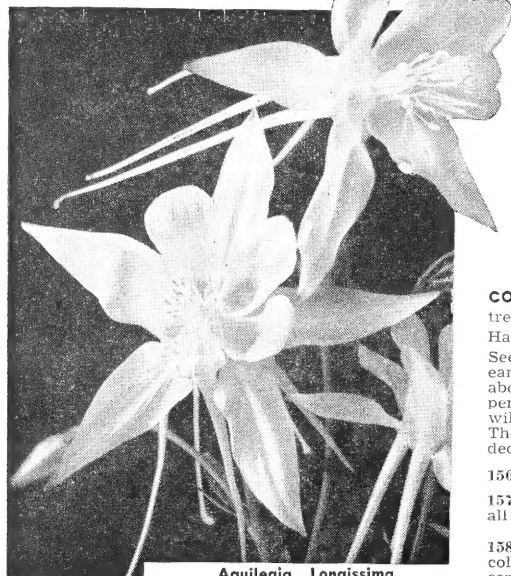

or COLUMBINE Queen of Flowers

HARDY PERENNIAL

Yours for the choosing.

Grace, color,
sheer beauty of form.

Pictured in color on back cover.

Aquilegia, Longissima

Red, yellow, pink, blue, white; long spurred and spurless, which do you want?

Hp. Choice cut flowers, borne on strong wiry stems in profusion during spring and early summer. The foliage is airy and graceful, delightful in the border. One of the most easily grown perennials, very dependable and long lived. One year old plants may be forced for winter bloom in the greenhouse. Seed sown inside in early spring will usually bloom in fall the first season. Likes partial shade.

COLUMBINE CULTURE: This subject is treated fully on pg. 12 of "The Gardener's Handbook" sent free with your order.

Seed may be sown in frames in spring, early summer or fall. Germination takes about 4 weeks, but the seed is very dependable and almost every one planted will come up, if the bed is kept moist. The plants like a cool, moist partly shaded location.

156—**Alpina**, 18 in. Dwarf, deep blue.

157—**Blue Shades**, Long spurred variety of all pretty blue tones.

158—**Californica Hybrida**, 3 ft. Rare tri-color. Petals orange, long carmine spurs, canary yellow corolla. Attractive, striking.

160—**Chrysantha**, 2 ft. Attractive rich yellow.
160A—**Double Golden Chrysantha fl. pl.** 3 ft. Large fully double golden yellow. Pkt. 25c.

161—**Clematiflora** (New Spurless Columbine). Medium height, compact, free flowering; large open Clematis-shaped flowers in delicate colors.

162—**Coerulea**, Rocky Mountain Columbine, 2 ft. Sky blue, white corolla. One of our best.

162A—**Coerulea Double**, Pkt. 25c.

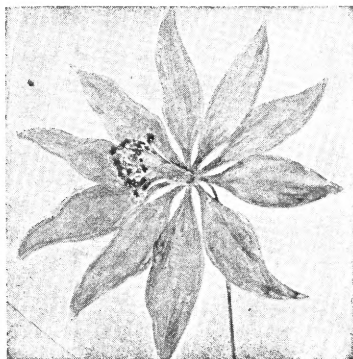

163—**Crimson Star**, 2 ft. Petals striking crimson with white centers and blooms 3 in. and more across. Brilliant. Blooms May-June. Hardy.

164—**Dobbie's Imperial Hybrids**, 3 ft. One of the finest improved strains. Long spurs, large flowers in strong, brilliant tones of all colors. Pkt. 10c; 25c; 1/16 oz. \$1.00; 1/8 oz. \$1.75.

165—**Longissima**. Noted for unusually long slender spurs, 4-5 in. long, giving the pale yellow flrs. an exceptionally graceful effect. From Northern Mexico, likes hot dry places. June flr.

166—**Long-Spurred Hybrids**. Novel colors.

168—**Nana Alba**. A dwarf large flowering plant bearing milk white flowers of rare beauty.

161—Aquilegia Clematiflora. Pkt. 10c.

VIOLA CORNUTA—VIOLETS OR TUFTED PANSIES

Companion plants to Pansies, though flowers are not as large. Admirably adapted for rockery, beds, and borders as the colors are bright and attractive, plants are sturdy and free blooming, thriving in moist partial shade with no enemies. Pkt. 10c; Giant Pkt. 25c.

- 2073—**Arkwright Ruby**. Ruby crimson shading to terra cotta. Flowers larger than ordinary.
- 2074—**Avalanche**. Large, pure white. Pkt. 25c.
- 2076—**Blue Beauty**. Very early, brightest blue.
- 2078—**Blue Perfection**. Pretty medium blue.
- 2079—**Chantreyland**. Best pure apricot.
- 2105—**G. Wermig**. Extra long stems make this large violet blue excellent to cut. Pkt. 25c.
- 2080—**Ilona**. Wine red.
- 2084—**Lutea Splendens**. Deep golden yellow.
- 2102—**King Henry I.** Deep violet with heavenly blue center and bright yellow eye. A very attractive and delightful novelty. Pkt. 25c.
- 2106—**Purple Bedder**. Large rounded flowers of rich royal purple. Neat compact plants. Pkt. 25c.
- 2085—**The Black Imp. Viola Nigra**. Quaint little flowers that might have been snipped from black velvet. Blooms quickly and true from seed.
- 2093—**Mixed**. Complete mixture of all colors.

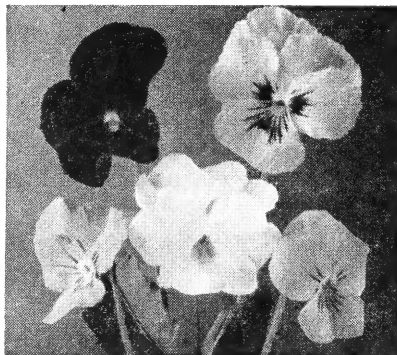

CHOICE GEMS

The Gem class is more compact in growth, very free flowering; flowers are larger and slightly ruffled. These are ideal for the border.
2082—**Jersey Gem** (Blue Gem). 8 in. Flowers rich velvet blue with slightly ruffled petals are borne on long stems. An excellent variety for cutting. Slightly fragrant.
2092—**Gem Mixed**. Special mixture.

2104—**Pedunculata**. (Pansy Violet) Stems ascending, often 2 ft. long, bearing in each leaf axil large round 1 inch purple centered orange flowers. Pkt. 25c.

2103—**Viola Douglasii** (Chrysantha). A delightful species, 5 in. Flowers are orange-yellow veined with purple. The leaves are deeply lobed giving a fern-like appearance. Pkt. 25c.

2094—**Little Johnny Jump Up**, hp. 4 in. "The Old Fashioned Violet." Diminutive. Pansy charm. Flowers show tones of lemon, lavender, rosy mauve, lilac, gold, violet. Floriferous, bright.

Viola Cornuta—Park's Pride

2081—**PARK'S PRIDE** Improved Scotch Bedding. Viola Cornuta. A grand New bedding hybrid mixture of all the finest, brightest, gayest colors in the largest size flowers and most robust plants. A supreme mixture. Pkt. 10c; 25c; 1/16 oz. 60c; 1/8 oz. \$1.00.

PERFUMED VIOLA ODORATA

2095—**The Czar**. A very large flowered, bright blue, delightfully scented.
2096—**Sweet Violet** or Tufted Violet, hp. 4 in. (Viola Odorata semperflorens). Blue, sweet.

BUTTERFLY VIOLETS (Papilio)

Hp. Blooming the first season. Hardy and free blooming. The flowers are larger than other Cornuta varieties, and usually have purple centers.

2101—**Mixed**.

SELECTING AND SOWING

If you wish seeds to sow in a garden bed or to present to children, or if you have had but little experience in raising flowers from seeds, select such flowers as Alyssum, Aster, Balsam, Cosmos, Calendula, Candytuft, Oriental Pinks, Gailardia, Helianthus, Marigold, Mignonette, Bedding Petunia, Pansy, Phlox, Ricinus, Scabiosa, Nasturtium, Valerian, Verbena and Zinnia; for vines get Cobaea, Cypress, Dolichos, Gourds, Morning Glory, Thunbergia. Even in sowing these it is well to prepare the bed carefully in a sunny exposure; place a low board frame around it and after sowing, water and cover with a newspaper until plants appear. If you sow seeds in the open with full exposure to rain, wind and sun, you should not complain if few of the seeds become plants.

TO INSURE SUCCESS. Many failures with seeds are due to lack of knowledge of the time required by the seeds to germinate. Study the table on pages 45 and 46 to avoid failures from this cause. Follow instructions in the "Gardener's Handbook."

OUR CUSTOMERS SPEAK

Every year we receive hundreds of letters telling us of the joy gardening brings, and praising our seeds. We wish to thank each of you for this interest shown, and assure you that we shall do our best to continue to merit your praise.

Dear Sirs: July 23, 1951. Milwaukee, Wisc. I do want to say that your seeds, bulbs and plants grew and bloomed more than you say. I was very glad to have such fine seeds etc. Our garden is full of beautiful flowers. Yours truly, L.W.K. I like your treated seed, and have planted them side by side with seed from other seedsmen. Yours came up 100% while others were very spotty. I find your seeds tops.

M.L. Merritt, June 26, 1951, Mobile, Ala. Gentlemen: Sept. 29, 1951, Baltimore, Md. The Mount Hood Daffodil replacement that you sent arrived to-day. Thank you. Your honesty and desire to please are very gratifying. Also all the bulbs and seeds that I have bought from you have been of top quality. Yours truly, Florence Wagner
Gentlemen: June 26, 1951, Georgetown, Mass. At a recent flower show, pansies from your seed got the blue, also a special award. Am pleased to report this, as all entries showed superior excellence in horticulture. Sincerely,

Tyler's Spofford Hill Gardens
Dear Friends: Some years ago I seemed to discover that the Park's People love people as well as flowers. That is a it should be. C. H.

GIANT DELPHINIUMS

LATEST AND BEST

These are among the finest perennials. All are beautiful, hardy, and live and bloom freely for years. Prevailing colors are blue and violet with intermediate shades. Plant in good moist friable loam, with old manure mulching twice a year. Under the best conditions, the better Hybrid Delphiniums will attain 6 or 7 feet in height, with large flowers borne closely upon long spikes. Cropped to 6 inches after blooming in spring new stalks develop and bloom in fall.

GERMINATION NOTES: To improve germination, place seed between moist blotters and leave directly under freezing compartment in refrigerator for a week prior to planting. Then see directions in "Gardener's Handbook."

Victorious All Double

Petunia, All Double America

Thrill to the Lively Beauty of Fine **PETUNIAS**

The All Purpose Flower: For lovely beds, attractive borders, cutting, charming porch boxes, winter pot plants.
A Type and Color to please every taste: All Doubles, Giant ruffled singles, Plain edged giants, Small prolific singles. Pink, yellow, red, rose, purple, lavender, blue, white. Dwarf or tall, spreading or compact.
 Petunias stand pre-eminent as a hardy, beautiful, all purpose flowering plant. Readily started from seed, they soon come into bloom, becoming a glowing mass of exquisite, showy, and deliciously fragrant flowers, in bloom from early summer until frost. They may be started in fall or early winter indoors to make blooming window plants for late winter and very early spring. *Don't omit these beauties from your list.*

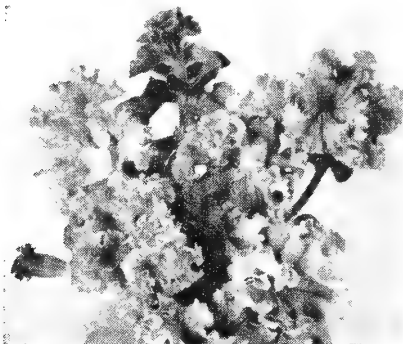

GIANT DOUBLE PETUNIAS Now in Complete Color Range

With the Return of the foreign-grown All Double Victorious Strain, which has not been available since 1943, and with the American-Grown All American All Doubles introduced in the past few years, we are glad to offer again a complete color range in Double Petunias. The seeds are necessarily very expensive due to the fact that they have to be carefully hand pollinated and there is real art and scientific knowledge required to produce seed which will give consistently Double flowers. The seed are smaller and the seedlings weaker than the Single kinds, so require more care in starting.

Soil should be sterilized by pouring water thru it twenty-four hours before planting, and the little seeds planted on the surface of the soil. Then follow directions on pg. 3 and 4 of the "Gardener's Handbook" sent free with your order. The seeds are very tiny, and the 25c packets, contain only a few seeds as noted in the description. We suggest that you obtain the larger packets, but list the 25c packets in keeping with our price policy. **After the All Double Petunias get past the baby plant stage they are quite vigorous and can "take it" even where summers are hot.**

AMERICAN ALL DOUBLES

- 1566—**America**—All American Silver Medal. Uniform, compact plants about 1 ft. high, with 18 in. spread. Bears Carnation type flowers of medium size 2 in. across of fresh rose-pink. Blooms from June until frost. **Pkt. 40 seeds 25c; 100 seeds 50c; 200 seeds \$1.00.**
 1561A—**Canadian Queen**. A new delicate pure pink shade we're sure you'll love. Extra large flowered, very uniform. Finest double ever offered. **15 seeds 25c; 100 seeds \$1.00.**
 1567—**Colossal Shades of Rose**. The largest of the all doubles. Flowers often 5 in. across are 100% double in varying forms, colors range from light salmon-pink to deep rose. **Pkt. (15 seeds) 25c; 100 seeds \$1.00.**
 1562—**Rose Marie**. Bronze medal. The plants are dwarf and very free blooming. Flowers are a delightful rose-pink shade, 3 in. and more across. **Pkt. (15 seeds) 25c; 100 seeds \$1.00.**
 1606A—**Rhapsody**. New deep burgundy wine-purple, dwarf, vigorous, free branching with huge fully fringed flowers. **15 seeds 25c; 100 seeds \$1.00.**
 1563—**Canadian Mixture**. A distinctly superior strain. Characterized by excellent germination, rich coloring and uniformly dwarf but vigorous and free-branching habit. The large flowers are nicely ruffled and 100% double. Rose, pink and salmon shades. **Pkt. (20 seeds) 25c; 100 seeds 90c.**
 1561—**Mrs. Dwight D. Eisenhower**. Silver Medal winner. Flowers are soft mid-salmon 2 3/4 in. across. Plants are low and spreading, bushy and of good habit. Height about 16 in., spread about 30 in. Uniform in color and doubleness. Excellent for bedding or borders. **Pkt. (10 seeds) 25c; 50 seeds \$1.00, 100 seeds \$2.00.**

1644—SUPER FLUFFY RUFFLES

This is a well balanced mixture of pink, white, salmon, deep-rose, crimson and light blue. Outstanding in beauty, it is so ruffled and frilled that the flowers appear to be double. A very special strain which is superior to all other ruffled varieties. Try a packet. You will be well pleased. **Pkt. 10c; 100 seeds 25c; 500 seeds \$1.00.**

Mr. Park:

I have had good results from all the seed I ordered from you. I think every seed of the double Petunia came up. Mrs. C. M., Claremont, N. C.

NEW DWARF RUFFLED PETUNIA

1598—"GARDEN GIANTS"

The outstanding feature of this new variety is its satisfactory plant growth. The plants uniformly develop into well-rounded mounds 12-15 in. high. They start flowering when extremely small, and continue their gorgeous display all through the summer, holding their size and ruffling even under adverse conditions of heat and dryness. Because of its uniformity and continuous blooming, it is by far the best variety of Giant Ruffled Petunias for borders we have ever seen. Includes a wide variety of bright color combinations. **Pkt. 25c; 1/128 oz. 75c; 1/64 oz. \$1.25.**

ALL DOUBLE PETUNIA

"VICTORIOUS"

DWARF—GIANT FRINGED—LARGE SIZE

Plants dwarf compact, true and uniform. Very fine for borders, beds or pot plants. The flowers are large, 3-5 in. in diameter, and so frilled and fluted and full, that they appear as great fluffy balls. The most fully double of all Petunias.

Petunia Dwarf Compact Bright Eyes

DWARF COMPACT PETUNIAS

THE PERFECT BORDER

(Hybrid Nana Compacta) ha. or hhp. 1 ft.

Plants are dwarf and compact, 10-12 in. high and form round, mound-like plants which suits them well to the border. Very free flowering, the plants are covered with bloom from early summer until frost. The flowers are of medium size 1½-2 in. in diameter. This is the best type for borders, edgings for taller plants. They also make shapely pot plants or window box subjects.

PARK'S 10 BEST Border Petunias

These fine varieties constitute three-fourths of our demand for Dwarf Petunias.

1621—**Bright Eyes**. (A.A. '46). A gay blanket of rosy pink, white throated flowers cover the dwarf 9 in. plant all season.

1620—**Blue Violet**. (New). A good deep violet color. The flower has unusual substance.

1623—**Cream Star**. Silver Medal 1940. 2½ in. pointed star-like flowers of soft creamy white.

1582—**Cheerful**. 12 in. Compact rounded plants. Flowers, clear pink salmon suffused.

1602A—**Firechief**. The reddest Petunia you've ever seen! Dwarf habit, free blooming. The all-time point winner since the All Americas were founded. Pkt. 25c.

1624—**First Lady** (New). A.A. '41. Large 2½ inch flowers of pleasing clear light bluish pink.

1619—**Glowing Rose**. The intense brilliance of this new Petunia makes it the most startling of all the dwarf bedding varieties. Individual flowers are much larger and plants are even and do not become unsightly. It commences to bloom about 1 month earlier than other varieties and produces a profusion of intense glowing rose flowers thru-out the season until frost. Pkt. 25c.

1628—**Rosy Morn Improved**. Most popular of this group. Brilliant rose, broad white throat.

1629—**Silvery Blue**. (Heavenly Blue). Light cambridge sky blue. Delightful, unusual color.

1631—**White Perfection**. A.A. 1939. One of the best white petunias in existence. Abundant 2 in. snow white flowers, compact plants.

1632—**Balanced Blend of 10 best above**. Pkt. 10c; Gt. Pkt. 25c; 1/16 oz. 75c; ½ oz. \$1.35.

ADDITIONAL GOOD VARIETIES

1622—**Celestial Rose**. Glowing deep rose.

1625A—**Hollywood Star**. (1939 Silver Medal) This charming rich rose flower is unique. It's shape is a definite 5 pointed star. Seeds available again for the first time since before the war. Pkt. 25c.

1626—**Peach Red**. Unique distinct new color of salmon cerise 2 in. fls. (A.A.).

1627—**Rose of Heaven**. Rose pink.

1653—**Velvety Crimson**. New.

1584—**Velvet Ball**. Compact round 8 in. plants are smothered in 2½ in. flaming velvet flowers.

1652—**Fancy Blotched and Striped Mixed**. An unusual blending of the brightest and most contrasting blotched and striped flowers.

1633—**Complete Mixture**. Pkt. 10c; 25c; 1-16 oz. 50c; ½ oz. 85c.

029—**RED, WHITE, BLUE, ROSE, PINK Collection**. Numbers 1602A, 1619, 1629, 1631, 1582 above. One 25c Pkt. of each (Value \$1.25 for \$1.00).

SPECIAL NEW DWARF COMPACT

The plants are of dwarf compact habit, fine for borders or beds and like the Hybrid nana compactas listed above except for flower shape and size. For unusual borders of exceptional beauty you'll surely want these

The New Dwarf Compact Giants

Flowers twice as big are 2½-3 in. across.

1619A—**Stripe Glory**. Boldly striped and blotched with rich carmine and pure white. A strong, yet beautiful contrast. Pkt. 25c.

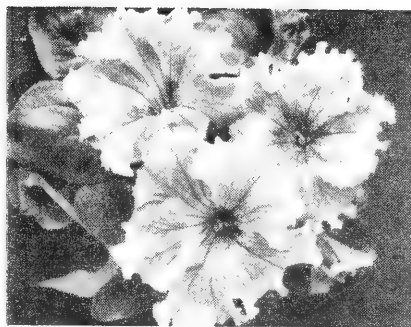

1648A—**Salmon Glory**. Opens dazzling scarlet orange changing to rich salmon orange. Pkt. 25c.

The Dwarf Ruffled Giants

Medium sized, well ruffled and waved, deep throated flowers keep the neatly compact erect 10-12 in. plants covered all season.

1583—**Martha Washington**. Blush pink, lavender throat. A beautiful color.

1645—**Little Giants Mixed**. Provides an unusually attractive array of colors from deep crimson thru rose and pink to white in every imaginable shade and combination of markings.

Petunia Giant Fringed Theodosia

GIANT FRINGED

(Hybrida Grandiflora Fimbriata 12-16 in. The flowers of well grown plants of this type will average 4-6 in. across and have a charm all their own due to the attractively fringed and frilled blooms. Fine for beds, borders, unexcelled for pots or window boxes.

1587—**Dainty Lady**. New Petunia in a distinct color. The semi dwarf compact plants bear delicately fringed golden yellow flowers.

1590—**Violacea**. (Ocean Blue). A giant flower.

1599—**Scarlet Beauty**. Scarlet rose. A beautiful color and a giant flower.

1591—**White Beauty**. A pure white beauty with delightfully frilled and ruffled edges.

1591A—**White Mound**. Similar to White Beauty but dwarfier, more prolific, more fringed.

1589—**Theodosia Improved**. Bright rosy pink with blending golden center.

1592—**Complete Mixture of Fringed Single**.

GIANT FLOWERED—Plain edged.

(Hybrida grandiflora) ha. hhp. 12-16 in. Flowers are large 3-4 in. across, plain edged and deeply lobed. Stronger growing than the Ruffled and Fringed type and are excellent for beds, borders, pots, or cutting. Vigorous and spreading.

1616—**Burgundy**. Rich wine red, white throat.

1647—**Elk's Pride**. Largest, darkest, best velvet purple.

1618—**Pink Glory**. Extra large deep pink.

1619—**Purple Robe**. Deep purple edged silver.

1650A—**White Queen**. Extra large wavy, pure white flowers. Best white in this class.

1651—**Complete Mixture**. Giant Flowered.

LARGEST OF ALL

Wide open 4-6 in. flowers. Brilliant colors for beautiful pot plants, summer beds, borders.

1593—**Glamour**. Salmon pink, golden center.

1595—**Giants of Calif**. Complete mixture of colors.

1581—**Dwarf Giants of California**. Ramona strain. Dark and light shades mixed.

1581A—**Ramona Superdwarfs**. Giant ruffled flowers in a controlled blend of dark shades, orchid shades and bicolors. Plants have the ultimate in dwarf habit. Bred for pot plants. Pkt. 25c.

1586—**Complete mixture of Ruffled Giants**.

PETUNIA HYBRID BEDDING 1½ Ft.

(Hybrida) ha. or hhp. 1½-2 ft. Stronger growing than the dwarf compact type with larger flowers 2-3 in. across. Habit of growth is more spreading and taller. Produces a mass of flowers from early summer until frost even under trying conditions.

Its best use is in beds for mass effect, or in porch boxes.

1601—**Blue Bee**. Striking and attractive in richest violet blue shade. A delightful color.

1601—**Flaming Velvet**. Reselected A.A. Gold Medal '36. Rich, brilliant velvet blood red flowers.

1605—**General Dodds**. Very darkest red of all.

1606—**Howard's Star**. Handsome velvety-purple with pure white star in the center.

1609—**Radiance**. Silver Medal 1941. For richness and brilliance of color, this beautiful cerise flower with an undertone of salmon shading to gold at the throat is hard to beat.

1611—**Topaz Rose**. Fiery velvety rose of a brilliancy seldom seen, with suffusion of gold and topaz rose in the throat. A.A. 1938.

1612—**White King**. The best white Hybrid.

Petunia F1 Hybrid Silver Medal

NEW F1 HYBRIDS

More vigorous, more profuse, larger flowers, almost 100% true, earlier and more uniform due to their hybrid nature. The seeds are necessarily more expensive than the common types.

MULTIFLORA PETUNIAS (F1 Hyb.)

The finest border or bedding Petunias ever produced. Flowers larger, more freely produced, completely cover the plants which do not break open. They are uniform and extra early blooming.

1560A—**Rose Charm**. 1 ft. Deep glowing rose. Plants of the dwarf compact type with extra large flowers. 30 seeds 25c; 100 seeds 50c.

1560—**Pink Sensation**. 2 ft. (A.A. 1948). Unusually large rose-pink flowers are borne profusely on tall bushy plants. 30 seeds 25c; 100 seeds 50c.

1600—**Silver Medal**. 1 ft. (A.A. 1949). The plants are compact and rounded, covered with large flowers of richest, purest salmon-pink yet seen in Petunias. Pkt. 25c; 100 seeds 50c.

DWARF FRINGED F1 HYBRIDS

New and outstanding. Dwarf compact plants with large fringed, ruffled flowers. Hybrid vigor, free flowering and earliness.

1603A—**Ballerina**. (All American Winner 1952). Soft glowing salmon 3½-4 in. beautifully fringed flowers on dwarf, compact, vigorous plants. 100% true to type and color. Excellent for pots, outstanding in the garden. Pkt. (30 seeds) 25c.

1603—**La Paloma**. Pure white with yellow throat, large well fringed flowers. 30 seeds 25c.

1608—**Tango**. Semi-fringed flowers of clear salmon-red, almost as red as Firechief with larger flowers, more vigorous growth. Very free blooming. 30 seeds 25c; 150 seeds \$1.

1610—**Boleto**. Giant well ruffled and fringed flowers of deep rose are 3½-4 in. across. 30 seeds 25c; 150 seeds \$1.00.

1611A—**Blended Mixture of F1 Hybrids** listed above. Pkt. 25c; 100 seeds 50c.

PETUNIA CULTURE

This is covered more fully on page 11 of "The Gardener's Handbook" sent free with your order. We treat all seeds of Petunias with Semesan to help prevent "damping off" which together with covering too deeply causes more failures than covering else. The seed may be sown indoors about 8 weeks before your usual outdoor planting time to give you blooming plants in early June, and because the seed are small should be sown in boxes and transplanted even when planting late.

BALCONY—Large Flowered Bedding

(Pendula) ha. or hhp. 1½ ft. This is the strongest growing of all Petunias, and succeeds under the most trying conditions.

Habit is trailing with long branches which are covered with bloom. Flowers are larger than the Hybrid Bedding type 2½-3 in. across. This type should be used for mass effect in beds, and the pendulous habit suits it ideally to hanging baskets or porch boxes.

1571—**Black Prince**. Rich deep velvety mahogany red with beautiful dark throat. Luxuriant.

1572—**Royal Blue**. Large, deep velvety blue.

1573—**Snow Storm**. One of the finest whites.

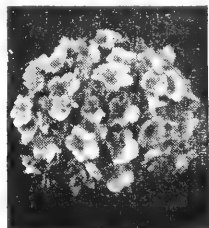

1574—**Royal Rose**. Extra large flowers of clear, warm, rich rose.

1575—**Star of Calif**. Crimson, white star.

1576—**Complete Mixture**. Balcony Petunias.

MAMMOTH DAHLIA TYPE

Zinnias hha, 2-3 ft.

Dahlia Flowered Zinnias are most popular due to their great size (a well grown flower is often 6 in. across and 4 inches deep), and their fine form which resembles the Show Dahlias with broad petals, closely imbricated, seemingly piled one upon the other.

2166—**Buttercup**. New bright yellow.

2167—**Canary Bird**. A delicate shade of primrose, very large and holds its color well.

2170—**Crimson Monarch**. Largest and best red, flowers often 8 in. across; freely borne.

2171—**Dream**. A beautiful shade of soft lavender-blue, turning to purple as the flower ages.

2172—**Eldorado**. Charming rose on salmon.

2173—**Exquisite**. A most pleasing shade of Tyrian rose, deepening towards the center; huge.

2175—**Golden State**. Yellow in the bud, turning to vivid orange when in full bloom.

2176—**Illumination**. Brilliant deep rose.

2177—**Luminosa**. Bright deep pink suffused salmon.

2178—**Meteor**. Rich glowing red, suggesting the deep toned shade of velvet; excellent; lovely.

2179—**Old Rose**. A distinct color.

2180—**Oriole**. Immense orange and gold.

2181—**Polar Bear**. Immense, pure white, the best white yet found in Zinnias, true Dahlia form.

2182—**Purple Prince**. Rich deep purple.

2183—**Royal Purple**. (A.A.) Truly kingly in its rich, deep robe of purple. Uniform 3 ft. plants, large fully double flowers.

2186—**Will Rogers**. (New). The loveliest and most brilliant scarlet red. A worthy addition.

024—**COLLECTION OFFER**. One packet each of the six starred (*) varieties above, value 60c for 50c.

2189—**Park's Unexcelled Mixture**. A specially prepared mixture of the choicest colors. Pkt. 10c; 25c; 1/8 oz. 60c; 1/4 oz. \$1.00.

2188—**Pastel Dahlia - Flowered Mixture**. For a very choice blend, we offer a marvelous mixture of delicate shades; light pinks, creams, lavenders and whites.

For a beautiful cut flower combination use **Crimson Monarch**—10c and **Polar Bear**—10c.

SUPER CROWN O' GOLD

2230—**Pastel Tints**. Large well formed flowers in rich pastel shades, each petal overlaid at the base with deep golden yellow. Flower type is intermediate between Dahlia Flowered and California Giant. Pkt. 10c; 25c; 1/8 oz. \$1.00.

Zinnia Fantasy
Wildfire

ZINNIA FANTASY

Unique and beautiful curled and interlaced, the Fantasy Zinnias are new and distinctive.

ZINNIA PEPPERMINT STICK MIXED

Our 1950 introduction. Color picture cover 1.

2227A—Peppermint Stick Mixed

A greatly improved mixture which includes Old Glory which is white with rose red striations. The Clown, yellow with reddish orange striations and several additional colors including red and yellow, pink and white, and purple and white. Flowers 2 1/2-3 in. across are freely borne all season until frost from a very early beginning. Plants grow 2 1/4 ft. tall are symmetrical and long stemmed. This will indeed be the brightest, most admired, distinctive flower in your garden. Available in mixture only which comes about 70% true striped. Pkt. 25c; 1/16 oz. 50c; 1/4 oz. \$1.00.

ZINNIAS are of easiest culture. For an extra early start, seeds may be sown in flats and transplanted; however, they grow more sturdily if sown in the bed where they are to stand after all danger of frost has passed. When plants are a few inches high keep well cultivated and give thorough soaking every two weeks.

The Best SWEETPEAS

The Sweet Pea has all the good qualities of a perfect annual for general cultivation. It is easy of culture, growing in almost any soil and sunny situation, begins to bloom when small and, if freely cut, will continue for a long period. Flowers are rich and colorful, deliciously fragrant, and are freely borne on long stems. Excellent for cutting. **CULTURAL DIRECTIONS** pg. 10 "Gardener's Handbook."

CHRISTMAS SPENCER—or Early Flowering

Flowering a month earlier than the Giant Spencer type, this class has large waved flowers, long stems and many are fragrant. Recommended for all sections where spring is late, for greenhouse culture, for winter flowering in the deep south.

1977—SPECIAL MIXTURE CHRISTMAS SPENCER SWEET PEAS

In a grand mixture of choice named varieties, blended to give a balanced color collection. In bloom several weeks ahead of the Standard Spencers. The wonderfully large, well formed flowers are produced on long sprays in pleasing and beautiful shades and tones. Pkt. 10c; Giant Pkt. 25c; 1 oz. 60c; 1/4 lb. \$2.

GIANT STANDARD SPENCER SWEET PEAS

This well known type blooms later than the Christmas Spencers, but is more vigorous, withstands heat so remains in bloom later into the summer. The large, waved flowers are borne on long sturdy stems.

1995—SPECIAL MIXTURE GIANT SPENCERS

A carefully blended mixture of well balanced colors of all the latest and most desirable named varieties. Pkt. 10c; 1 oz. 25c; 1/4 lb. 75c; 1 lb. \$2.75.

1972—**ALL SEASON MIXTURE**. A blend of Christmas Spencer, Cuthbertson's, Standard Spencers. For bloom early to late. Pkt. 10c; 25c; oz. 45c; 1/4 lb. \$1.35.

1998—**OLD FASHIONED SWEET SCENTED**. A complete mixture. More fragrant than modern types. Pkt. 10c; Giant Pkt. 25c; 1 oz. 40c.

1999—RUFFLED & FRILLED

A specially prepared blend of all the best ruffled and frilled varieties in complete well balanced mixture. Pkt. 10c; 1/2 oz. 25c; 1 oz. 35c; 1/4 lb. \$1.00.

DWARF SWEET PEAS

Wonderful for bedding or for borders. 1996—**CUPID SPENCER**, 6 in. Complete Special Mixture. Pkt. 10c; 1/2 oz. 25c; 1 oz. 40c.

Are Sweet Peas Hard to Grow in Your Climate?—Here's The Answer.

NEW HEAT RESISTANT SWEET PEAS

CUTHBERTSON'S STRAIN

Flowers in Hot Weather

Not only do they continue blooming long after hot weather has come and other sweet peas have died, but they begin blooming two weeks ahead of the Standard Spencers. The flowers are of the true Spencer Orchid Flowering type with long stems and wavy petals. Large and deliciously fragrant, they are produced in great quantity on plants of exceptional vigor. The colors are bright and clear. If you grow only one strain of Sweet Peas this is the most practical.

2003—**Carol**, Clear Pink; 2004—**Coline**, Scarlet; 2005—**Janet**, Pure White; 2006—**Frank G.**, Lavender; 2007—**Tommy**, Mid Blue; 1992—**William**, White with Pink picoté edge, large very fragrant. Pkt. 10c; 25c; 1 oz. 85c.

2002—**CUTHBERTSON'S HEAT RESISTANT SPRING FLOWERING BLENDED MIXTURE**.

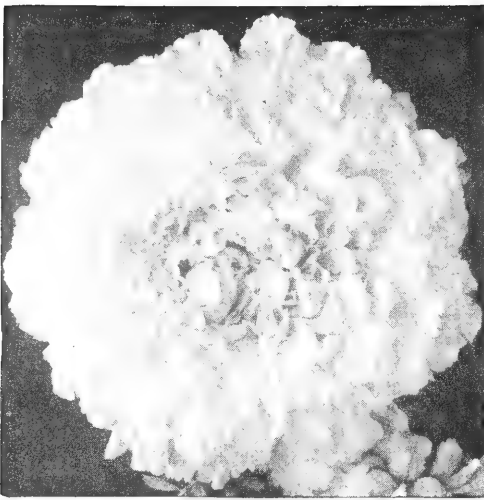

A balanced blend containing the above varieties and all other named varieties in this class to give a most complete color range. Pkt. 10c; Large Pkt. 25c; 1/2 oz. 45c; oz. 75c; 1/4 lb. \$2.00.

See pg. 3 for "The Sweet Peas of the Future."

CUTHBERTSON'S Heat Resistant Sweet Peas

"Wish to report phenomenal success with sweet peas from your seed last year. In spite of the drought, we had brilliant blooms from June till shortly before Christmas. Had always found sweet peas hard to grow but these reached a height of 6 ft., bloomed continuously." Mrs. B. S. B.; N. J.

CHOICE FLOWER SEEDS—PART ONE

ANNUALS and PERENNIALS

Blooming the First Season

ANNUAL FLOWERS are those which grow, bloom, seed and die in one season. There are attractive annuals for every purpose. Some are fine for cutting, others for beds or borders, rock plants and climbers. We have listed in Part 1 the finest of all Annuals, and the perennials which may be treated as annuals in that they will bloom the first season from seed.

HARDY FLOWERS are those which may be sown in early spring as soon as the ground may be worked, or in fall to come up with the first breath of spring for earlier blooms. Hardy perennials and biennials may be planted in July or August and transplanted to permanent location about 1 month before frost where they live over with the protection of a mulch to give bloom in the spring. We think it best to sow perennials and biennials in the spring so that they can become better established before winter.

HALF HARDY FLOWERS listed with the symbol hh may be started early indoors for early bloom, or they may be planted outside when danger of frost is over. Half Hardy perennials need winter protection in the Northern states.

BALSAM Camellia Flowered

EASY TO GROW

BALSAM

Touch-Me-Not or Lady Slipper

Among the most popular, beautiful and showy of the easy growing annuals are the "Touch-me-nots" coming in a great many colors, some pleasingly variegated. The flowers are large and as double as roses, waxy in texture, admirable in beds and borders, thriving in shade in any rich soil, and doing well in pots or beds. Started in autumn, they bloom in the window in winter.

300—BALSAM CAMELLIA FLOWERED. 2 ft. This is perhaps the finest Balsam in cultivation. It is known as Camellia-flowered because its flowers are like Camellias in general form and appearance. Plants grow 2 ft. high, branching symmetrically, and become little trees covered with elegant bloom. Large double waxy flowers. Splendid Mixture. Pkt. 10c; 25c; ¼ oz. 40c; ½ oz. 70c.

298—BALSAM NEW FLOWERING BUSH Dwarf Mixed. 1 ft. These bear their flowers on spikes above the foliage. They are desirable for beds and are also showy as pot plants. The flowers are fully double. ("Splendid mixture of colors.") Pkt. 10c; 25c; ¼ oz. 40c; ½ oz. 70c.

296—Torch. Bright red rose. Double Bush Type.

301—ROSE FLOWERED Mixture. Large, full double rose-like flowers borne in profusion on a strong growing bushy plant.

297—BALSAM. All types mixed.

The flowers are very large, fragrant, of the most varied and exquisite colors and variegations, and borne on long spikes. They bloom continuously during summer and autumn and are largely used for summer beds and borders, as well as for growing in pots for winter-blooming. As cut-flowers they are fashionable, and last well in vases. The plants are so readily started from seeds, bloom so early the first season and are so easily grown under almost any condition that they merit a high place in every selection of choice annual flowers. Our mixtures are especially prepared and will please you.

PARK'S PERENNIAL FLOWER SEEDS

FOR PERMANENCE AND CHARM

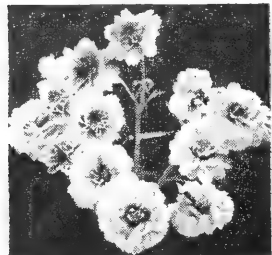

These are valuable subjects of the flower garden, as most of them are not only showy and beautiful when in bloom, but will do service year after year for a long period, enduring cold, excessive rain and drought, regardless of neglect and improper attention. They are easily grown from seeds. Thorough preparation of bed and good care will award you with everlasting beauty.

Directions for making outdoor beds and sowing seeds are sent with every order.

Hp. HARDY PERENNIALS are hardy plants which will live and bloom every year for a long period. Plants grow to the flowering stage each year and die down again to the roots which remain alive but dormant until the next season. They are very valuable for borders and cut flowers, and once established require less care than the annuals.

Hb.—HARDY BIENNIALS are those which bloom the second year from seed, then die. For a continuous display of this type, seed must be sown every year.

The varieties listed in Part IV are all hardy perennials or biennials, and may be sown in spring or midsummer. We recommend sowing perennial seeds in the Spring. Seeds germinate better in the cool weather than in the heat of mid-summer, and the longer growing period produces larger plants which winter over easily. THE HARDY PERENNIALS AND BIENNIALS LISTED IN THIS PART will bloom the second year from seed.

See page 13 for symbols used.

 743—**Winteri (New Pinks)**. hp. 9 in. The flowers are pure colors, habit compact, blooms first year.
 736—**Double**, complete mixture of double varieties.
 744—**Complete Mixture of Hardy Garden Pinks**.

PRIMROSE CULTURAL NOTES

Sow in pots or pans as early in the year as possible, water, cover with glass and place outdoors where the soil will be frozen. When milder weather sets in bring into gentle warmth and seeds will germinate freely. Freeze seeds in ice cubes for similar effect. Allow plenty of time—seeds are often tardy. Primulas need partial shade, rich, porous soil, and a mulch of pine needles or salt hay to keep roots cool—this seems the answer to growing them in warm climates. They like the east side of a hill, shelter from wind, good drainage.

1685—**LANTERN PLANT**. (*Physalis Franchetti*.) hp. 2 ft. Blood red inflated calyx like Chinese lantern.

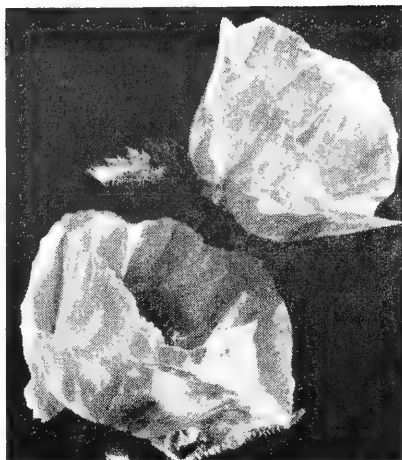

Primula Veris Collossea

TO CONTROL "DAMPING OFF"

"Damping Off" is a microscopic fungus growth which attacks the baby plants just as they emerge from the ground or while they are still small, and is the reason for many failures which are blamed on the seed, especially where very small seeds are concerned. It may be overcome by treating the seed (We do this for you as an extra "Park Service"), and sterilizing the soil. (Bake in the oven or pour boiling water thru it 24 hrs. prior to planting.) Where sterilizing is impractical, as with an outdoor bed or cold frame, spray the soil, just as the seedlings appear, with Semesan solution (1-3 oz. to gallon of water). We offer SEMESAN in 1-3 oz. Pkts. for 20c. This is enough to spray 40 square feet of bed.

Park's

GIANT DAHLIAS

Are easily grown from Park's strong tubers.

THE VARIETIES LISTED here are selected with painstaking care from the thousands of varieties in cultivation. Those listed on these pages are the best growers, freest bloomers, and those listed as mammoth will give the largest flowers Dahlias can produce. Growing show dahlias does take careful disbudding, and proper care.

KEEPING CUT DAHLIAS. Strip the foliage except at the top, recut the stem and immerse in water as hot as the hand will bear. When water cools transfer the Dahlias to cold water and place in the cellar overnight. Treated thus they will keep for several days and increase in size.

DAHLIA CULTURE. This subject including how to prevent disease and get rid of insect pests is covered fully in "The Gardener's Handbook." For bedding effects plant on or a week before frostproof date. For exhibition blooms plant late (May and June). Late planting brings the plants into bloom during late summer and fall when the cool temperatures promote better blooms.

EXHIBITION DAHLIAS. Exhibition Dahlias and satisfactory tubers cannot be produced in the same hill. If you want 12 inch flowers, go after them with fertilizer, water and disbudding.

INDEX, GERMINATION and CULTURE GUIDE

When sowing seeds it is always best to divide the packets and sow at different times. Note the time and give good care until the plants have had time to appear. The following table gives the time normally required for germination of each variety of seeds. This time may vary as much as 25% either way. Do not condemn seeds until you have given them at least two or three trials. Those marked z or having the dagger (†) beside them may lie dormant for a year or more. The other tables are self explanatory, and while they are somewhat complicated, do give a great deal of information about each of the hundreds of species listed.

B301—CRIMSON GLORY. Dark velvety crimson with yellow center. 30c each; 3 for 75c.

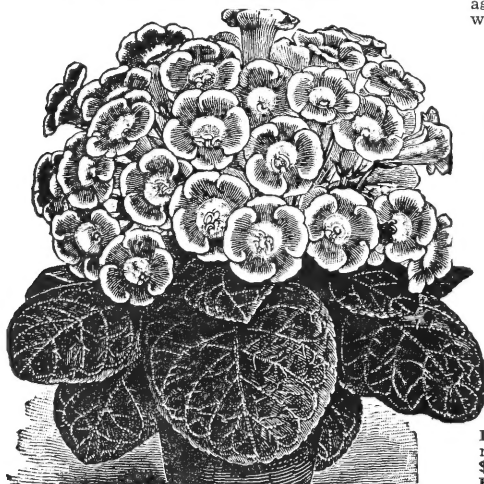

B306—SCARLET CHARM (Pulchella). Flowers are smaller but of bright scarlet color and produced in great profusion. 35c each; 3 for 85c.

B310—AMBROISE VARSHAFLET. Large flowers are white blushed lavender with contrasting marks and dots of deep orchid. 35c ea.; 3 for 85c.

B308—STORM CLOUD. An entirely new Hybrid type which might have come from a cross with Gloxinias. Gloxinia shaped flowers have wide open throats. The foliage is large, Gloxinia like and most beautiful. Color: stormy blue and white. 45c each; 3 for \$1.00. Supply limited.

B300—CARMINITA. Deep rosy carmine. Wide open throat is golden yellow spotted maroon. A Gloxinia flwd. Beauty. 40c each; 3 for \$1.00.

092—ACHIMENE COLLECTION. One of each. 10 Bulbs for \$3.00. 093—3 of each \$7.50.

Gloxinias mixed 3 for \$1.00; 12 for \$3.50.

GLOXINIA CULTURE. For a succession of bloom start bulbs every two weeks from January thru April. Pot with crown protruding, using equal parts of rich fibrous loam, sand, and leaf mold. A warm temperature (70 degrees) is required or bulbs will rot. Insure good drainage by placing gravel in bottom of the pot. Water sparingly until growth starts, then plenty of water should be given and care taken not to wet the leaves. An eastern exposure, well sheltered from strong wind and sun suits them. After blooming, withhold water to ripen the tubers, then store in sand for winter at 45 degrees.

White Calla—45c each

EXOTIC CALLAS
